Dear Shareowner of the Ave Maria Mutual Funds:

Catholic Advisory Board member Larry Kudlow, says, “Corporate profits are the mother’s milk of economic prosperity.” Well, corporate profits expanded nicely in 2010, up 40%+ by most measures. Investor sentiment also improved. In my mid-2010 report, I wrote:

“What could trigger a positive change in sentiment? One possibility – an election in November, 2010 which sends more representatives to Washington who are freedom-loving, pro-growth, pro-business, low tax-rate oriented, and anti-big-government-spending.”

Fortunately that materialized. Indeed, the American electorate may have reached a breaking point on government spending. It’s encouraging to see Americans demonstrating at tea parties and other gatherings demanding smaller government. The rallying cry seems to be “Give us less!” At the same time, socialized Europeans have marched and burned, demanding more handouts, while their governments teeter on the brink of financial collapse, thanks to unsustainable social benefits previously promised.

There are good reasons for optimism regarding the U.S. capital markets, despite many obvious problems. Between the massive healthcare regulation and the Dodd-Frank financial reform law, the last Congress vastly expanded the government’s intrusion into the private economy. In the next few years, we are hopeful that many of these growth and prosperity-stifling policies will be reversed.

The portfolio managers of the Ave Maria Mutual Funds screen out companies based on the guidelines established by our Catholic Advisory Board. This eliminates from consideration, companies that support abortion, pornography and those that engage in embryonic stem cell research.

I’m happy to report that for the Overall Periods ended December 31, 2010, Morningstar* has rated the Ave Maria Growth Fund (*AVEGX out of 677 Mid-Cap Growth Funds*) and the Ave Maria Rising Dividend Fund (*AVEDX out of 373 Mid-Cap Blend Funds*) 5 stars, and rated the Ave Maria Opportunity Fund (*AVESX out of 373 Mid-Cap Blend Funds*) 4-stars based on each Fund’s risk-adjusted performance. Our investment

research emphasis on fundamentals with a long-term focus seems to be working.

Thanks for being a shareholder.

Sincerely,

AVE MARIA CATHOLIC VALUES FUND

PORTFOLIO MANAGER COMMENTARY

Dear Fellow Shareowner:

The Ave Maria Catholic Values Fund’s (AVEMX) return for 2010 was 20.5% compared to 15.1% for the S&P 500 Index and 26.7% for the S&P 400 MidCap Index. Since its inception on May 1, 2001, the Fund’s performance versus its benchmarks is:

	Since 5-01-01 Inception through 12-31-10	
	Total Returns	
	<u>Cumulative</u>	<u>Annualized</u>
Ave Maria Catholic Values Fund (AVEMX)	87.8%	6.7%
S&P 500 Index	19.5%	1.9%
S&P 400 MidCap Index	99.9%	7.4%

Six months ago, many market participants were mired in fear of an economic “double dip,” out-of-control Federal spending, Washington’s increasingly anti-business rhetoric, and the prospect of higher taxes. In our semi-annual report, we expressed confidence that mid-term elections would bring change for the better and the economic recovery would not falter.

The market soon thereafter began to recover in anticipation of the Republican victories that put them in control of the House and reduced the Democratic majority in the Senate. The Federal Reserve also announced its second quantitative easing program. From their July lows, most market indices appreciated more than 20% by year-end. Time will tell whether Washington will bring sanity to fiscal policy and roll back regulatory excesses, however things are looking up. Tax increases have been forestalled at least two years. Economic activity is accelerating, and double-digit corporate profit growth is likely for 2011. Unemployment may have finally peaked and should gradually decline. Housing seems to be bottoming, and consumer balance sheets are improving. Meanwhile, Federal Reserve monetary policy remains extremely accommodative. We believe that overall, 2011 will be another good year for stocks. Selectivity, as always, will be important.

Stocks making significant contributions to the Fund’s performance in 2010 were Caterpillar, Inc. (Construction Machinery), FMC Corporation (Specialty Chemicals), BE Aerospace, Inc. (Aircraft Parts), Halliburton Company (Oil Service), The Sherwin Williams Company (Paints), Meadowbrook Insurance Group, Inc., Varian Medical Systems, Inc. (Medical Devices), Genuine Parts Company (Automotive Parts Distribution) and Coach, Inc. (Retail). Negative contributors were ION Geophysical Corporation (Oil Service), Southwestern Energy Company (Natural Gas Exploration), Hewlett-Packard Company (Technology), Abbott Laboratories (Medical Products), and Avon Products, Inc. (Cosmetics).

AVE MARIA CATHOLIC VALUES FUND

PORTFOLIO MANAGER COMMENTARY

(Continued)

Over the last six months, the Fund eliminated several stocks from the portfolio. Cisco Systems, Inc. violated the Fund's moral screens by contributing corporate funds to Planned Parenthood. Other liquidations were: Forest Oil Corporation, Evolution Petroleum Corporation, ION Geophysical Corporation, and Suncor Energy, Inc. CenturyLink, Inc. (Telecommunications), Advance Auto Parts, Inc. (Auto Parts Retail), Balchem Corporation (Specialty Chemicals), and Adtran, Inc. (Telecom Equipment) were selling at our estimate of intrinsic value, after significant price appreciation.

Proceeds from these sales were used to purchase shares in Devon Energy Corporation, Chico's FAS, Inc., U.S. Bancorp, Hewlett-Packard Company and MasterCard, Inc. Each of these stocks meet our criteria as very high quality companies with strong balance sheets and attractive long-term growth prospects. Importantly, none of these companies violate the Fund's moral screens.

Thank you for being a shareowner.

Sincerely,

George P. Schwartz, CFA

* Past performance is no guarantee of future returns. Morningstar Ratings™ are based on risk-adjusted returns. The Overall Morningstar Rating™ is derived from a weighted average of the performance figures associated with a fund's 3, 5, and 10-year (if applicable) Morningstar Rating™ metrics. For funds with at least a 3-year history, a Morningstar Rating™ is based on a risk-adjusted return measure (including the effects of sales charges, loads, and redemption fees) with emphasis on downward variations and consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% 4 stars, the next 35% 3 stars, the next 22.5% 2 stars, and the bottom 10% one star. For the 3-year and 5-year periods ended December 31, 2010, the Fund was rated 4 stars (out of 677 Mid-Cap Growth Funds) and 5 stars (out of 594 Mid-Cap Growth Funds), respectively.

AVE MARIA RISING DIVIDEND FUND

PORTFOLIO MANAGER COMMENTARY

Dear Fellow Shareholders:

2010 was a good year for the Ave Maria Rising Dividend Fund. The total return for the Fund for the year was 17.9% (compared to 15.1% for the S&P 500 Index.). When we reported to you at June 30, 2010, it didn't look as though it would be a very good year with the Fund down 2.0%. At that point fears of a "double dip" recession were playing on investors' emotions. But as the year progressed it became increasingly apparent the economy was growing, and corporate profits were recovering fast.

Positive contributions to performance in the portfolio came from Family Dollar Stores, Inc., Ross Stores, Inc., Halliburton Company and Emerson Electric Company. Conversely, Medtronic, Inc., Abbott Laboratories, FPL Group, Inc., and DENTSPLY International, Inc., were a drag on portfolio returns. Health care stocks as a group hurt our performance in 2010. The controversy surrounding passage of the healthcare bill no doubt contributed to this disappointing showing. Notwithstanding, we continue to believe that carefully selected stocks in the industry offer the opportunity for outstanding long-term performance and we have selectively added to positions in recent months.

A year ago, we made mention in our letter that Standard & Poors had described 2009 as the worst year for dividends since they had started keeping records. Against that dismal backdrop we also reported that of the companies in the portfolio at year end, only five had reduced their dividends during the year, while 28 had increased theirs. This year has been considerably better. Of the 41 companies in the Rising Dividend Fund at year end, none reduced their dividend during the year and 33 raised theirs.

Dividends are getting a lot more attention among investors – and rightly so, in our view. For quite a while now, several decades actually, dividends were seen as "your father's Oldsmobile" – something for old people content to hold high-dividend stocks for the income and willing to accept little growth in exchange. That seems to be changing. Now that the baby boomers are sweeping towards retirement, they can identify with that need for income, and especially if it is a rising stream of income. In addition, after all of the financial deceit of the last ten years, dividends have come to be seen as "quality assurance" in terms of accounting creditability. You can fake earnings, but you can't fake a dividend. We consider this increased emphasis on dividends as a trend with staying power.

We are optimistic in our outlook for the economy and solidly confident in the long-term outlook for companies held in the Fund. We select companies that have a record of compounding their earnings *and dividends* at above-average rates on a sustained basis. And through the last few years, as other companies faltered, these great companies haven't let us down.

Comparison of the Change in Value of a \$10,000 Investment
in the Ave Maria Rising Dividend Fund, the S&P 500 Index,
and the S&P 500 Dividend Aristocrats Index

- (a) The returns shown do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares.
- (b) Represents the period from the commencement of operations (May 2, 2005) through December 31, 2010.
- (c) Prior to December 31, 2010, the S&P 500 Dividend Aristocrats Index was used as the Fund's primary benchmark. The S&P 500 Dividend Aristocrats Index measures the performance of large cap, blue chip companies within the S&P 500 that have followed a policy of increasing dividends every year for at least 25 consecutive years. The Fund's managers believe the S&P 500 Dividend Aristocrats Index is becoming less relevant for comparison purposes because, among other things, S&P has changed the criteria for companies inclusion in the index. The Fund's managers believe S&P has lowered the standard for a company to qualify for inclusion in the S&P 500 Dividend Aristocrats Index. Therefore, the Fund's managers believe the S&P 500 Index is the most appropriate index for comparison purposes.

AVE MARIA OPPORTUNITY FUND

PORTFOLIO MANAGER COMMENTARY

Dear Fellow Shareowner:

For 2010 the Ave Maria Opportunity Fund had a total return of 19.2%. It was another good year for the Fund, on top of the 40.8% gain achieved in 2009. For the second year in a row, the smallest, most leveraged companies outperformed larger, less leveraged companies. In that environment, our low-risk, value-oriented investment style resulted in the Fund underperforming its two primary benchmarks during 2010. The Fund has outperformed both benchmarks over longer time periods, as outlined in the table below.

	Average Annual Total Return			
	For periods ended 12/31/10			
	<u>1 year</u>	<u>2 years</u>	<u>3 years</u>	<u>Since Inception*</u>
Ave Maria Opportunity Fund	19.2%	29.5%	4.4%	2.6%
S&P 600 Smallcap Index	26.3%	25.9%	3.0%	2.3%
Russell 2000 Index	26.9%	27.0%	2.2%	2.0%

* 5/1/06

Several energy related holdings were among the Fund's best performers in 2010, as oil prices (and many other commodities) rose sharply, based on inflationary fears and the rebounding global economy. Also posting a large gain for the year was Endo Pharmaceuticals Holdings, Inc. Endo, a specialty drug company, made a series of strategic acquisitions in 2010 that should boost long-term growth. Another big winner was Signet Jewelers Ltd., the world's largest specialty jewelry retailer, with brands such as Kay Jewelers and Jared. The five stocks that performed best for the Fund during 2010 were:

Cimarex Energy Company	Oil, Gas & Consumable Fuels	+84.6%
Rosetta Resources, Inc.	Oil, Gas & Consumable Fuels	+80.8%
Endo Pharmaceuticals Holdings, Inc.	Pharmaceuticals	+74.0%
Rowan Companies, Inc.	Energy Equipment & Services	+72.8%
Signet Jewelers Ltd.	Specialty Retail	+62.5%

The five stocks that performed worst for the Fund during 2010 were:

H&R Block, Inc.	Diversified Financial Services	-23.7%
Investment Technology Group, Inc.	Financials – Capital Markets	-10.3%
Lexmark International, Inc.	Technology Printing & Supplies	-5.9%
Federated Investors, Inc.	Financials – Capital Markets	-2.0%
Forest Laboratories, Inc.	Pharmaceuticals	-0.4%

AVE MARIA OPPORTUNITY FUND

PORTFOLIO MANAGER COMMENTARY

(Continued)

H&R Block's stock price suffered as the company reported declining revenue due to the high unemployment rate and fewer customer tax returns filed. Investment Technology Group, Inc. is a service provider to the brokerage and investment community whose revenue and profits were hurt by lackluster institutional equity trading volume last year. Federated Investors, Inc., one of the country's largest managers of money market funds, was forced to waive a portion of their management fees due to short-term interest rates near 0% for much of the year. We believe each of the companies' share prices have significant recovery potential from currently depressed levels.

Small and micro-cap stocks have been the biggest winners since the March 2009 low, and the Fund has benefitted a good deal from our small-cap holdings, as reflected above. But as the new decade begins, there appears to be a good bit of speculative froth in many small and micro-cap issues. We of course want to own only high quality, non-speculative shares in our portfolios. And we try to avoid the mistake many investors make during bulls markets – to become unduly focused on return and forget about risk. Managing risk is an essential part of our investment process. As the legendary value investor Seth Klarman says, “the best investors do not target return – they focus first on risk, and only then decide whether the projected return justifies taking each particular risk.”

A fundamental tenet of our investment philosophy is that shares of a well-managed business, purchased at a compelling valuation and held for many years to allow the power of compounding to work, will generate a superior investment result over the long-term. True to this contrarian, value-orientation, the portfolio at year end was heavily represented by what we believe are high quality, low-risk, reasonably priced securities. The average PE ratio for the Fund was 12x. We believe the risk in the portfolio is low and the upside potential is significant.

Thanks for being a shareholder of the Ave Maria Opportunity Fund.

With best regards,

Timothy S. Schwartz, CFA

AVE MARIA WORLD EQUITY FUND

PORTFOLIO MANAGER COMMENTARY

Dear Fellow Shareowners:

The Ave Maria World Equity Fund (AVEWX) was launched on May 1, 2010. For the period April 30, 2010 (initial public offering) through December 31, 2010 the Fund was up 12.4%, while the S&P 1200 Global Index return was up 8.5% for the same period. Returns from the world's stock markets varied widely last year especially in Europe due to the ongoing sovereign debt crisis. Markets in weaker countries such as Greece, Portugal and Ireland declined, while Germany, Sweden, Denmark and others experienced double-digit advances. Markets in many developing economies were up 20% or more. Accelerating inflation and rising interest rates held China and Brazil to single-digit gains.

The investment strategy of the Ave Maria World Equity Fund is to invest for long-term capital appreciation, primarily in non-U.S. companies that operate globally. We want companies that generate above-average returns on invested capital by virtue of superior products, good management and efficient utilization of assets. The Fund focuses on non-U.S. companies and U.S. companies with at least 50% of their revenues derived from outside of the U.S. All of the stocks owned by the Fund trade in the United States and are denominated in U.S. dollars with shares of foreign domiciled companies represented by American Depositary Receipts (ADRs).

Stocks with the largest positive impact on Fund performance in 2010 were energy and capital infrastructure related, particularly companies with substantial participation in the developing economies of Asia, the Middle East, Africa and South America. These stocks included Foster Wheeler AG (Engineering and Construction), General Cable Corporation (Electrical Wire & Cable), Siemens AG (Capital Equipment), Schlumberger Limited (Oil Service), and BHP Billiton Ltd. (Mining & Energy). Negative contributors included Banco Santander S.A. (Banking), Mindray Medical International Ltd. (Medical Equipment), Hewlett-Packard Company (Technology), and Delhaize Group (Food Retail).

As of December 31st, the Fund's geographic weightings versus the S&P Global 1200 Index were approximately:

AVE MARIA BOND FUND

PORTFOLIO MANAGER COMMENTARY

Dear Fellow Shareholders,

2010 was another good year for the Ave Maria Bond Fund. The Fund had a total return of 6.7% for the year while the Barclays Capital Intermediate Government/Credit Index had a total return of 5.9%.

Portfolio returns for the year were aided by the overweighting of investment grade corporate bonds while the relatively short average maturity of the portfolio acted as a moderate drag on performance. Positions in dividend paying common stocks also added to performance. At year end, the dividend yield on the common stock position was an attractive 3.4%. Of the 22 common stocks held in the portfolio at year end, 19, or 86%, raised their dividend during 2010.

Factors seen as impacting the fixed-income markets in 2011 include an improving economy and continued stimulative monetary policy. There is also reason to hope that with the new Congress there will be a more focused effort to address the runaway budgetary deficits that have mushroomed in recent years. (In our view that would be a distinct positive for the fixed-income markets.) There remains the risk that the Fed will be slow in withdrawing the highly stimulative monetary policy it has applied for so long, the unintended consequences of which could be an increase in the rate of inflation. A recovering economy and increase in the rate of inflation would likely mean higher interest rates. Accordingly, we have structured the bond portion of the portfolio in a defensive manner with a short average maturity. A stronger economy also increases the likelihood that corporate bonds and dividend-paying stocks will do well. The portfolio currently has an overweight position in investment grade corporate bonds and maximum 20% position in common stocks. We are constructive in our outlook for the capital markets and expect the Ave Maria Bond Fund to have another good year in 2011.

Thank you for your participation in the Fund. We appreciate the confidence you have placed in us and work hard to be worthy of it.

With best regards,

NOTES TO FINANCIAL STATEMENTS

December 31, 2010

1. Organization and Significant Accounting Policies

The Ave Maria Catholic Values Fund, the Ave Maria Growth Fund, the Ave Maria Rising Dividend Fund, the Ave Maria Opportunity Fund, the Ave Maria World Equity Fund and the Ave Maria Bond Fund (collectively, the “Funds”) are each a diversified series of the Schwartz Investment Trust (the “Trust”), an open-end management investment company registered under the Investment Company Act of 1940 and established as an Ohio business trust under a Declaration of Trust dated August 31, 1992. The Ave Maria Catholic Values Fund commenced the public offering of its shares on May 1, 2001. The public offering of shares of the Ave Maria Growth Fund and the Ave Maria Bond Fund commenced on May 1, 2003. The Ave Maria Rising Dividend Fund commenced the public offering of its shares on May 2, 2005. The Ave Maria Opportunity Fund commenced the public offering of its shares on May 1, 2006. The Ave Maria World Equity Fund commenced the public offering of its shares on April 30, 2010.

The investment objective of the Ave Maria Catholic Values Fund is to seek long-term capital appreciation from equity investments in companies that do not violate core values and teachings of the Roman Catholic Church. The investment objective of the Ave Maria Growth Fund is to seek long-term capital appreciation, using the growth style, from equity investments in companies that do not violate core values and teachings of the Roman Catholic Church. The investment objective of the Ave Maria Rising Dividend Fund is to provide increasing dividend income over time, long-term growth of capital, and a reasonable level of current income from investments in dividend-paying common stocks of companies that do not violate core values and teachings of the Roman Catholic Church. The investment objective of the Ave Maria Opportunity Fund is long-term capital appreciation from equity investments in companies that do not violate core values and teachings of the Roman Catholic Church. The investment objective of the Ave Maria World Equity Fund is to seek long-term capital appreciation from equity investments in U.S. and non-U.S. companies that do not violate core values and teachings of the Roman Catholic Church. The investment objective of the Ave Maria Bond Fund is to seek preservation of principal with a reasonable level of current income from investments in companies that do not violate core values and teachings of the Roman Catholic Church. See the Funds’ Prospectus for information regarding the investment strategies of each Fund.

Prior to February 13, 2010, the Ave Maria Bond Fund offered two classes of shares: Class I shares (sold subject to a distribution fee of up to 0.10% of the average daily net assets attributable to Class I shares) and Class R shares (sold subject to a distribution fee of up to 0.25% of the average daily net assets attributable to Class R shares). Each class of shares represented an interest in the same assets of the Fund, had the same rights and was identical in all material respects except that: (1) Class R shares bore the expenses of higher distribution fees; (2) certain other class-specific expenses were borne solely by the class to which such expenses were attributable; (3) each class had exclusive voting rights with respect to matters relating to its own distribution arrangements; and (4)

AVE MARIA MUTUAL FUNDS

NOTES TO FINANCIAL STATEMENTS

(Continued)

Class I shares required an initial investment of \$10 million. Investment income earned, realized capital gains and losses, and unrealized appreciation and depreciation were allocated daily to each class of shares based upon its proportionate share of total net assets of the Fund. Class-specific expenses were charged directly to the class incurring the expense. Common expenses which are not attributable to a specific class were allocated daily to each class of shares based upon its proportionate share of total net assets of the Fund.

At a meeting held on February 13, 2010, the Board of Trustees approved the termination of Class I shares of the Ave Maria Bond Fund. In addition, the “Class R” designation previously assigned to the sole remaining class of shares of the Ave Maria Bond Fund was eliminated.

Shares of each Fund are sold at net asset value. To calculate the net asset value, each Fund’s assets are valued and totaled, liabilities are subtracted, and the balance is divided by the number of shares outstanding. The offering price and redemption price per share are equal to the net asset value per share for each Fund.

The following is a summary of significant accounting policies followed by the Funds:

(a) Valuation of investments – Securities which are traded on stock exchanges are valued at the closing sales price as of the close of the regular session of trading on the New York Stock Exchange on the day the securities are being valued, or, if not traded on a particular day, at the closing bid price. Securities which are quoted by NASDAQ are valued at the NASDAQ Official Closing Price. Securities traded in the over-the-counter market are valued at the last reported sales price or, if there is no reported sale on the valuation date, at the most recently quoted bid price. Securities which are traded both in the over-the-counter market and on a stock exchange are valued according to the broadest and most representative market. Investments in shares of other open-end investment companies are valued at their net asset value as reported by such companies. Securities (and other assets) for which market quotations are not readily available are valued at their fair value as determined in good faith in accordance with consistently applied procedures established by and under the general supervision of the Board of Trustees, and will be classified as Level 2 or 3 within the fair value hierarchy, depending on the inputs used. Short-term instruments (those with remaining maturities of 60 days or less) are valued at amortized cost, which approximates market value.

Accounting principles generally accepted in the United States (“GAAP”) establish a single authoritative definition of fair value, set out a framework for measuring fair value and require additional disclosures about fair value measurements.

NOTES TO FINANCIAL STATEMENTS

Various inputs are used in determining the value of each Fund's investments. These inputs are summarized in the three broad levels listed below:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs
- Level 3 – significant unobservable inputs

For example, U.S. Treasury Obligations, U.S. Government Agency Obligations and Corporate Bonds held by the Ave Maria Bond Fund are classified as Level 2 since values are based on prices provided by an independent pricing service that utilizes various "other significant observable inputs" including bid and ask quotations, prices of similar securities and interest rates, among other factors.

The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement.

The following is a summary of the inputs used to value the Funds' investments by security type as of December 31, 2010:

Refer to each respective Fund's Schedule of Investments for a listing of the securities valued using Level 1 and Level 2 inputs by security type and sector or industry type. During the year ended December 31, 2010, the Funds did not have any significant transfers in and out of Level 1 or Level 2. There were no Level 3 securities or derivative instruments held by the Funds as of or during the year ended December 31, 2010.

(b) Income taxes – It is each Fund's policy to comply with the special provisions of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. As provided therein, in any fiscal year in which a Fund so qualifies and distributes at least 90% of its taxable income, such Fund (but not the shareholders) will be relieved of federal income tax on the income distributed. Accordingly, no provision for income taxes has been made.

In order to avoid imposition of the excise tax applicable to regulated investment companies, it is also each Fund's intention to declare as dividends in each calendar year at least 98% of its net investment income and 98% of its net realized capital gains plus undistributed amounts from prior years.

The following information is computed on a tax basis for each item as of December 31, 2010:

As of December 31, 2010, the Funds had the following capital loss carryforwards for federal income tax purposes:

Expires December 31,	Ave Maria Catholic Values Fund	Ave Maria Growth Fund	Ave Maria Rising Dividend Fund	Ave Maria Opportunity Fund	Ave Maria World Equity Fund
2016	\$ —	\$ —	\$ —	\$ 2,890,168	\$ —

These capital loss carryforwards may be utilized in future years to offset net realized capital gains, if any, prior to distributing such gains to shareholders.

During the year ended December 31, 2010, the Ave Maria Catholic Values Fund, the Ave Maria Growth Fund, the Ave Maria Rising Dividend Fund, the Ave Maria Opportunity Fund and the Ave Maria Bond Fund utilized capital loss carryforwards to offset current year realized gains in the amount of \$15,592,996, \$2,045,253, \$6,819,341, \$1,809,414 and \$940,482, respectively.

The following information is based upon the federal income tax cost of the Funds' investment securities as of December 31, 2010:

	Ave Maria Catholic Values Fund	Ave Maria Growth Fund	Ave Maria Rising Dividend Fund	Ave Maria Opportunity Fund	Ave Maria World Equity Fund	Ave Maria Bond Fund
Gross unrealized appreciation	\$ 43,571,492	\$ 40,123,669	\$ 23,646,397	\$ 5,020,613	\$ 1,131,530	\$ 4,377,187

Net unrealized appreciation	<u>\$ 41,679,522</u>	<u>\$ 37,638,081</u>	<u>\$ 22,587,701</u>	<u>\$ 4,981,397</u>	<u>\$ 1,036,136</u>	<u>\$ 4,125,508</u>
Federal income tax cost	<u>\$146,620,975</u>	<u>\$110,906,440</u>	<u>\$104,056,146</u>	<u>\$ 19,801,054</u>	<u>\$ 10,961,857</u>	<u>\$ 69,870,064</u>

The difference between the federal income tax cost of portfolio investments and the financial statement cost for the Ave Maria Catholic Values Fund, the Ave Maria Growth Fund, the Ave Maria Rising Dividend Fund and the Ave Maria Opportunity Fund is due to certain timing differences in the recognition of capital losses under income tax regulations and GAAP. These "book/tax" differences are temporary in nature and are due to the tax deferral of losses on wash sales.

AVE MARIA MUTUAL FUNDS

NOTES TO FINANCIAL STATEMENTS

(Continued)

For the year ended December 31, 2010, the Ave Maria Catholic Values Fund reclassified \$9,867 of distributions in excess of net investment income and \$495 of net investment income due to expenses that were non-deductible for tax purposes against paid-in capital; the Ave Maria Growth Fund reclassified \$357,781 of net investment loss against paid-in capital; the Ave Maria Rising Dividend Fund reclassified \$5,488 of accumulated net realized losses against paid-in capital due to the expiration of capital loss carryforwards and the Ave Maria Bond Fund reclassified \$40 of distributions in excess of net realized gains against undistributed net investment income. These reclassifications are reflected on the Statements of Assets and Liabilities. Such reclassifications, the result of permanent differences between the financial statement and the income tax reporting requirements, have no effect on each Fund's net assets or net asset value per share.

The Funds recognize the tax benefits or expenses of uncertain tax positions only when the position is "more-likely-than-not" to be sustained assuming examination by tax authorities. Management has reviewed the tax positions taken on federal income tax returns for all open tax years (tax years ended December 31, 2007 through December 31, 2010) and has concluded that no provision for unrecognized tax benefits or expenses is required in these financial statements.

(c) Security transactions and investment income – Security transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recognized on the accrual basis. Realized gains and losses on securities sold are determined on a specific identification basis. Discounts and premiums on fixed-income securities purchased are amortized using the interest method.

(d) Dividends and distributions – Dividends from net investment income, if any, are declared and paid annually in December for the Ave Maria Catholic Values Fund, the Ave Maria Growth Fund, the Ave Maria Opportunity Fund and the Ave Maria World Equity Fund. Dividends from net investment income, if any, are declared and paid quarterly for the Ave Maria Rising Dividend Fund and are declared and paid monthly for the Ave Maria Bond Fund. Each Fund expects to distribute any net realized capital gains annually. Dividends and distributions to shareholders are recorded on the ex-dividend date. The tax character of distributions paid during the years ended December 31, 2010 and December 31, 2009 was as follows:

For the period ended December 31, 2010, there were no distributions paid to shareholders of the Ave Maria Growth Fund and the Ave Maria World Equity Fund. In addition, no distributions were paid to shareholders of the Ave Maria Growth Fund during the year ended December 31, 2009.

(e) Repurchase agreements – The Funds may enter into repurchase agreements (agreements to purchase securities subject to the seller's agreement to repurchase them at a specified time and price) with well-established securities dealers or banks. Repurchase agreements may be deemed to be loans by the Funds. It is each Fund's policy to take possession of obligations issued or guaranteed by the U.S. Government or its agencies or instrumentalities as collateral under a repurchase agreement and, on a daily basis, mark-to-market such obligations to ensure that their value, including accrued interest, is at least equal to the amount to be repaid to the Fund under the repurchase agreement. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Funds may be delayed or limited.

(f) Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(g) Common expenses – Common expenses of the Trust are allocated among the Funds of the Trust based on relative net assets of each Fund or the nature of the services performed and the relative applicability to each Fund.

2. Investment Advisory Agreements and Transactions with Related Parties

The Chairman and President of the Trust is also the President and Chief Investment Officer of Schwartz Investment Counsel, Inc. (the “Adviser”). Certain other officers of the Trust are officers of the Adviser, or of Ultimus Fund Solutions, LLC (“Ultimus”), the administrative, accounting and transfer agent for the Funds, or of Ultimus Fund Distributors, LLC (the “Distributor”), the Funds’ principal underwriter.

Pursuant to Investment Advisory Agreements between the Trust and the Adviser, the Adviser is responsible for the management of each Fund and provides investment advice along with the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Funds. Effective May 1, 2010, the Adviser receives from each of the Ave Maria Catholic Values Fund, the Ave Maria Growth Fund, the Ave Maria Opportunity Fund and the Ave Maria World Equity Fund a quarterly fee at the annual rate of 0.95% of its average daily net assets. The Adviser receives from the Ave Maria Rising Dividend Fund and the Ave Maria Bond Fund a quarterly fee at the annual rate of 0.75% and 0.30%, respectively, of average daily net assets. Prior to May 1, 2010, the Adviser received from each of the Ave Maria Catholic Values Fund, the Ave Maria Growth Fund and the Ave Maria Opportunity Fund a quarterly fee at the annual rate of 1.00% of its average daily net assets.

The Adviser has contractually agreed to reduce its advisory fees or reimburse a portion of operating expenses until at least May 1, 2012 so that: the net expenses of the Ave Maria Catholic Values Fund, the Ave Maria Growth Fund and the Ave Maria World Equity Fund do not exceed 1.50% of average daily net assets; the net expenses of the Ave Maria Rising Dividend Fund and the Ave Maria Opportunity Fund do not exceed 1.25% of average daily net assets; and the net expenses of the Ave Maria Bond Fund do not exceed 0.70% of average daily net assets. For the year ended December 31, 2010, the Adviser reduced its investment advisory fees by \$11,880 with respect to the Ave Maria Catholic Values Fund; reduced its investment advisory fees by \$28,978 with respect to the Ave Maria Growth Fund; reduced its investment advisory fees by \$108,644 with respect to the Ave Maria Opportunity Fund; reduced its investment advisory fees by \$46,665 with respect to the Ave Maria World Equity Fund; and reduced its investment advisory fees by \$101,299 with respect to the Ave Maria Bond Fund.

AVE MARIA MUTUAL FUNDS
NOTES TO FINANCIAL STATEMENTS
(Continued)

Any fee reductions or expense reimbursements by the Adviser are subject to repayment by the Funds for a period of three years from the time such reductions or reimbursements occurred, provided the Funds are able to effect such repayment and remain in compliance with any undertaking by the Adviser to limit expenses of the Funds. During the year ended December 31, 2010, the Adviser recouped previous investment advisory fee reductions and expense reimbursements of \$24,444 from the Ave Maria Catholic Values Fund, \$3,983 from the Ave Maria Growth Fund and \$73,764 from the Ave Maria Bond Fund. As of December 31, 2010, the amount of fee reductions and expense reimbursements available for reimbursement to the Adviser are as follows:

Ave Maria Catholic Values Fund	\$	159,860
Ave Maria Growth Fund	\$	234,156
Ave Maria Opportunity Fund	\$	379,627
Ave Maria World Equity Fund	\$	46,665
Ave Maria Bond Fund	\$	349,235

The Adviser may recapture a portion of the above amounts no later than the dates as stated below:

	December 31, 2011	December 31, 2012	December 31, 2013
Ave Maria Catholic Values Fund	\$ 57,085	\$ 90,895	\$ 11,880
Ave Maria Growth Fund	\$ 104,027	\$ 101,151	\$ 28,978
Ave Maria Opportunity Fund	\$ 138,377	\$ 132,606	\$ 108,644
Ave Maria World Equity Fund	\$ —	\$ —	\$ 46,665
Ave Maria Bond Fund	\$ 112,210	\$ 135,726	\$ 101,299

Fee reductions or expense reimbursements, and expense repayments, are calculated daily and as such, certain Funds may have both fee reductions and expenses recouped in a fiscal year, subject to the expense limitations in place.

The Chief Compliance Officer of the Trust (the “CCO”) is an employee of the Adviser. The Trust pays the Adviser \$25,000 annually for providing CCO services, of which each Fund pays its proportionate share along with the other series of the Trust. In addition, the Trust reimburses the Adviser for out-of-pocket expenses incurred, if any, for providing these services.

JLB & Associates, Inc. (“JLB”) has been retained by the Adviser to manage the investments of the Ave Maria Growth Fund pursuant to the terms of a Sub-Advisory Agreement. The Adviser (not the Fund) pays JLB a fee at an annual rate of 0.285% of the average value of the Fund’s daily net assets. JLB’s fees are reduced on a pro rata basis to the extent that the Adviser reduces its advisory fees or reimburses expenses of the Ave Maria Growth Fund.

4. Contingencies and Commitments

The Funds indemnify the Trust's officers and Trustees for certain liabilities that might arise from their performance of their duties to the Funds. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.

5. Subsequent Events

The Funds are required to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed as of the date of the Statements of Assets and Liabilities. For non-recognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Funds are required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. Management has evaluated subsequent events through the issuance of these financial statements and has noted no such events.

6. Recent Accounting Pronouncement

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06 "Improving Disclosures about Fair Value Measurements." ASU No. 2010-06 amends FASB Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures, to require additional disclosures regarding fair value measurements. Certain disclosures required by ASU No. 2010-06 are effective for interim and annual reporting periods beginning after December 15, 2009 and others for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years. Management has determined that ASU No. 2010-06 has no monetary impact on these financial statements but will continue to evaluate the impact of those portions that are effective next fiscal year.

Ave Maria Catholic Values Fund, Ave Maria Growth Fund,
Ave Maria Rising Dividend Fund, Ave Maria Opportunity Fund,
Ave Maria World Equity Fund, and Ave Maria Bond Fund:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Ave Maria Catholic Values Fund, Ave Maria Growth Fund, Ave Maria Rising Dividend Fund, Ave Maria Opportunity Fund, Ave Maria World Equity Fund, and Ave Maria Bond Fund (the “Funds”) as of December 31, 2010, and the related statements of operations for the year or period then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented. These financial statements and financial highlights are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2010, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Ave Maria Catholic Values Fund, Ave Maria Growth Fund, Ave Maria Rising Dividend Fund, Ave Maria Opportunity Fund, Ave Maria World Equity Fund, and Ave Maria Bond Fund as of December 31, 2010, the results of their operations for the year or period then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

AVE MARIA MUTUAL FUNDS

ABOUT YOUR FUNDS' EXPENSES

(Unaudited)

We believe it is important for you to understand the impact of costs on your investment. As a shareholder of the Funds, you incur ongoing costs, including management fees and other Fund expenses. The following examples are intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

A mutual fund's ongoing costs are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The ongoing costs reflected in the tables below are based on an investment of \$1,000 made at the beginning of the most recent semi-annual period (July 1, 2010) and held until the end of the period (December 31, 2010).

The tables that follow illustrate each Fund's costs in two ways:

Actual fund return – This section helps you to estimate the actual expenses that you paid over the period. The “Ending Account Value” shown is derived from each Fund's actual return, and the third column shows the dollar amount of operating expenses that would have been paid by an investor who started with \$1,000 in the Funds. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for the Funds under the heading “Expenses Paid During Period.”

Hypothetical 5% return – This section is intended to help you compare the Funds' ongoing costs with those of other mutual funds. It assumes that each Fund had an annual return of 5% before expenses during the period shown, but that the expense ratio is unchanged. In this case, because the return used is not the Funds' actual returns, the results do not apply to your investment. The example is useful in making comparisons because the Securities and Exchange Commission (the “SEC”) requires all mutual funds to calculate expenses based on a 5% return. You can assess each Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Note that expenses shown in the table are meant to highlight and help you compare ongoing costs only. The Funds do not charge sales loads or redemption fees.

The calculations assume no shares were bought or sold during the period. Your actual costs may have been higher or lower, depending on the amount of your investment and the timing of any purchases or redemptions.

More information about the Funds' expenses, including historical annual expense ratios, can be found in this report. For additional information on operating expenses and other shareholder costs, please refer to the Funds' Prospectus.
