Q3 2022 COMMENTARY

Mirion Technologies is the global leader in ionizing radiation measurement and detection technologies serving the nuclear, medical, and civil defense industries. The medical division benefits from an aging population that drives demand for radiation hardware, therapies, and materials; while the nuclear division may benefit from a renewed interest in nuclear power.

Lowe's Companies is the second largest home improvement retailer in the US. We see ample opportunities for Lowe's to improve margins, while returning excess capital to shareholders.

Visa is a global technology company in the payments industry. Visa benefits from the secular migration away from cash to electronic payments and from the recovery in travel.

Bottom contributors to performance during the third quarter of 2022

Coca-Cola Europacific Partners	-17.42%
Teleperformance SE	-18.16%
eDreams ODIGEO S.A	-25.64%

Bottom contributors to performance during the first nine months of 2022

Iqvia Holdings, Inc.	-35.80%
Accenture PLC	-37.37%
eDreams ODIGEO S.A.	-63.50%

Coca-Cola Europacific Partners PLC is the largest global Coca-Cola bottler by revenue. The management team has a track record of creating value for shareholders by consolidating and improving the operations of smaller bottlers. The company has been applying the same playbook to Coca-Cola Amatil, an Australian bottler with operations in 6 countries.

Teleperformance is the worldwide leader in the outsourced customer experience market serving customers in 265 languages and dialects in over 170 markets. The company has a track record of solid organic revenue growth and in employing technologies to drive agent productivity.

eDreams ODIGEO is one of the world's largest online travel companies and one of the largest European e-commerce businesses. eDreams took a page from Amazon and launched a Prime membership service that offers members reduced rates on travel in exchange for a yearly membership fee. In June 2022, prime subscribers reached 3.2 million versus 1.2 million in June 2021. Recently, investors have become concerned that a recession will derail the travel industry's recovery.

During the quarter, the fund eliminated its positions in Visa (Technology) and Ferrari N.V. (Consumer Discretionary), while initiating new positions in MIPS AB (Consumer Discretionary).

Thank you for being a shareholder in the Ave Maria World Equity Fund.
