SCHWARTZ INVESTMENT COUNSEL, INC.

Equity Investment Discipline

- ❑ Emphasize companies with superior business characteristics
- ❑ Utilize independent analysis and proprietary screening supplemented by Wall Street research
- ❑ Purchase shares of financially sound companies when they are out of favor and attractively priced
- ❑ Buy across market capitalizations if price represents a significant discount to our estimate of intrinsic value
- ❑ Contrarian discipline designed to reduce the risk of loss and enhance returns
- ❑ Sell stocks when they no longer meet our standards

SCHWARTZ INVESTMENT COUNSEL, INC.

Research Process

- ❑ Focus on fundamentals – income statements, balance sheets and cash flow statements in conjunction with growth prospects
- ❑ Augment with external research from a variety of sources (for factual data)
- ❑ Make decisions based on assessment of risk/reward relationship
- ❑ Investment committee comprised of all portfolio managers and analysts meets regularly
- ❑ Securities selection process is not committee driven – PMs are responsible for managing their portfolios

SCHWARTZ INVESTMENT COUNSEL, INC.

Alpha Generation

- ❑ Alpha added through our disciplined bottom-up security selection
- ❑ Focus on sound operating fundamentals, conservative capital structures and proven staying power should lead to our companies doing well over entire market cycles
- ❑ Expect portfolios to perform well on a relative basis when economy is struggling
- ❑ Expect portfolios to have weaker relative performance when economy is rapidly growing or when investors are more inclined to speculation

AVE MARIA RISING DIVIDEND FUND

AVE MARIA RISING DIVIDEND FUND

Investment Objective

The Ave Maria Rising Dividend Fund investment objective is capital appreciation from companies with a long history of increasing dividends and the likelihood of increasing dividends in the future.

The Importance of Growth and Dividends

- Emphasis on companies with earnings and cash flow growth we expect to consistently and reliably exceed market growth
- Ability to maintain high returns on equity (ROE), which we regard as an indication of a wide moat (a durable competitive advantage)
- Financial capacity (low debt repayment requirements) to reinvest earnings at high incremental returns and to increase dividends regularly
- Over the long-term, dividend income is an important component of total return. Dividends help reduce variability of returns

AVE MARIA RISING DIVIDEND FUND

Investment Process

AVE MARIA RISING DIVIDEND FUND

Investable Universe

- We exclude stocks inconsistent with core values and teachings of the Roman Catholic Church. This excludes about 5% of the companies in the Russell 3000® Index
- We invest in companies we believe possess durable competitive advantages. We focus on mid-caps and large-caps
- We may also invest in foreign companies

AVE MARIA RISING DIVIDEND FUND

Investable Universe

- A durable competitive advantage generally comes from one or more of the following sources:
 - Intangible assets: Brands, patents, regulatory licenses
 - Customer switching costs: Tight integration with a customer's business, monetary costs, and non-monetary costs
 - Network effect: Value of the product or service increases with the number of users
 - Sustainable cost advantage: Cheaper processes, better locations, and unique resources
- We find certain industries have higher concentrations of companies with durable competitive advantages

AVE MARIA RISING DIVIDEND FUND

Buy Discipline

Price matters. Buying even exceptional companies at excessive valuations reduces the chances of superior investment performance.

- We seek a margin of safety by investing in companies when prices are below our estimate of intrinsic value
- We maintain coverage of companies we believe possess durable competitive advantages that we want to own at the right price (our “farm team”)
- To arrive at our own estimate of intrinsic value, we use fundamental security analysis

AVE MARIA RISING DIVIDEND FUND

Buy Discipline

We strive to invest in companies with strong and predictable cash flows, possessing the financial capacity to both reinvest earnings at high incremental returns and increase dividends regularly.

- We evaluate free cash flow coverage of dividends to assess a company's ability to increase dividends
- We review management's stated financial policies and track record as it relates to other potential uses of cash flow, such as acquisitions and share repurchases, to assess a company's commitment to dividend increases
- Both the ability and commitment to increase dividends are important factors in our due diligence process

AVE MARIA RISING DIVIDEND FUND

Risk Controls

- ❑ Risk-reducing stock selection process using bottom-up stock selection based on fundamentals (diversified, well managed companies)
- ❑ Industry concentration limited to no more than 25%
- ❑ Position sizes generally limited to 3% at the time of purchase
- ❑ Portfolio holdings typically range from 35-45 issues

AVE MARIA RISING DIVIDEND FUND

Sell Discipline

- ❑ Company becomes a violator of any moral screen established by our Catholic Advisory Board
- ❑ Stock price significantly exceeds our estimate of intrinsic value
- ❑ Company's economic moat is eroding, either due to internal or external factors (deteriorating fundamentals)
- ❑ Because we purchase companies based on their long-term fundamentals, we anticipate a low level of turnover

IMPORTANT INFORMATION FOR INVESTORS

Schwartz Investment Counsel, Inc., a registered investment adviser established in 1980, serves as investment adviser for Ave Maria Mutual Funds and invests only in securities that meet the Funds' investment and religious requirements. The returns may be lower or higher than if decisions were based solely on investment considerations. The method of security selection may or may not be successful and the Funds may underperform or outperform the stock market as a whole. All mutual funds are subject to market risk, including possible loss of principal. The Funds' investments in small and mid capitalization companies could experience greater volatility than investments in large capitalization companies. AVEWX invests in foreign securities and securities issued by U.S. entities with substantial foreign operations. Investments in these securities can involve additional risks relating to political, economic or regulatory conditions in foreign countries. These risks include less stringent investor protection and disclosure standards of some foreign markets; fluctuations in foreign currencies; and withholding or other taxes. AVEFX invests primarily in fixed income securities and as a result the Fund is also subject to the followings risks: interest rate risk, credit risk, credit rating risk and liquidity risk. AVEDX invests primarily in dividend paying companies and it is possible these companies may eliminate or reduce their dividend payments. AVEAX is classified as non-diversified and may therefore invest a greater percentage of its assets in the securities of a limited number of issuers than a fund that is diversified. At times, the Fund may overweight a position in a particular issuer or emphasize investment in a limited number of issuers, industries or sectors, which may cause its share price to be more susceptible to any economic, business, political or regulatory occurrence affecting an issuer than a fund that is more widely diversified. The issuers that the Fund may emphasize will vary from time to time.
